

Your Ultimate Source For Check Valves.

Premium quality and value you can trust.

Our new grooved check valve comes with four, 1/2" pre-tapped outlets - two on the system side and two on the supply side. This allows the valve to be configured for a variety of situations.

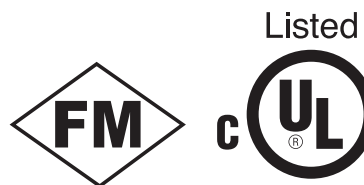

- Ductile iron body
- Spring-loaded steel clapper
- Rubber seat seal at back pressures greater than 1 PSI
- Baked on outer coating keeps valve free of rust and corrosion

Available in sizes from 2" to 8"
